

# Single Stream Recycling Services

April 2008

## Everyone can recycle! It's as easy as 1 - 2 - 3...

1. Determine which hauler picks up your garbage - look at your dumpster.
2. Contact your hauler for information on single-stream recycling  
- you may need to work with your condo board or building manager.
3. Your hauler will provide a receptacle for recycling - **Start recycling!**

Once you start recycling, don't forget to apply for your Refuse Rebate for your Condominium Association.
